Mr Fink's class was pretty fun
wasn't it? Even though you were
hardly ever there while you were
it was fun. Maybe next year
we'll have more classes togeth-
er. I'll see you this summer.
I hope

Mike

Her Coach,

Well it's been

you're a nut, fun to be near, and
a coo-coo bird. No really, I have
enjoyed having you behind me
in Algebra (sorry). Hope you're here
more often next year.

Love
Ken.

If our friendship depends on things like space and time,
Then when we finally overcome space and time,
We've destroyed our own brotherhood!
But overcome space, and all we have left is Here.
Overcome time, and all we have left is Now.
And in the middle of Here and Now,
Don't you think that we might see each other once or twice?

Jonathan Livingston Seagull

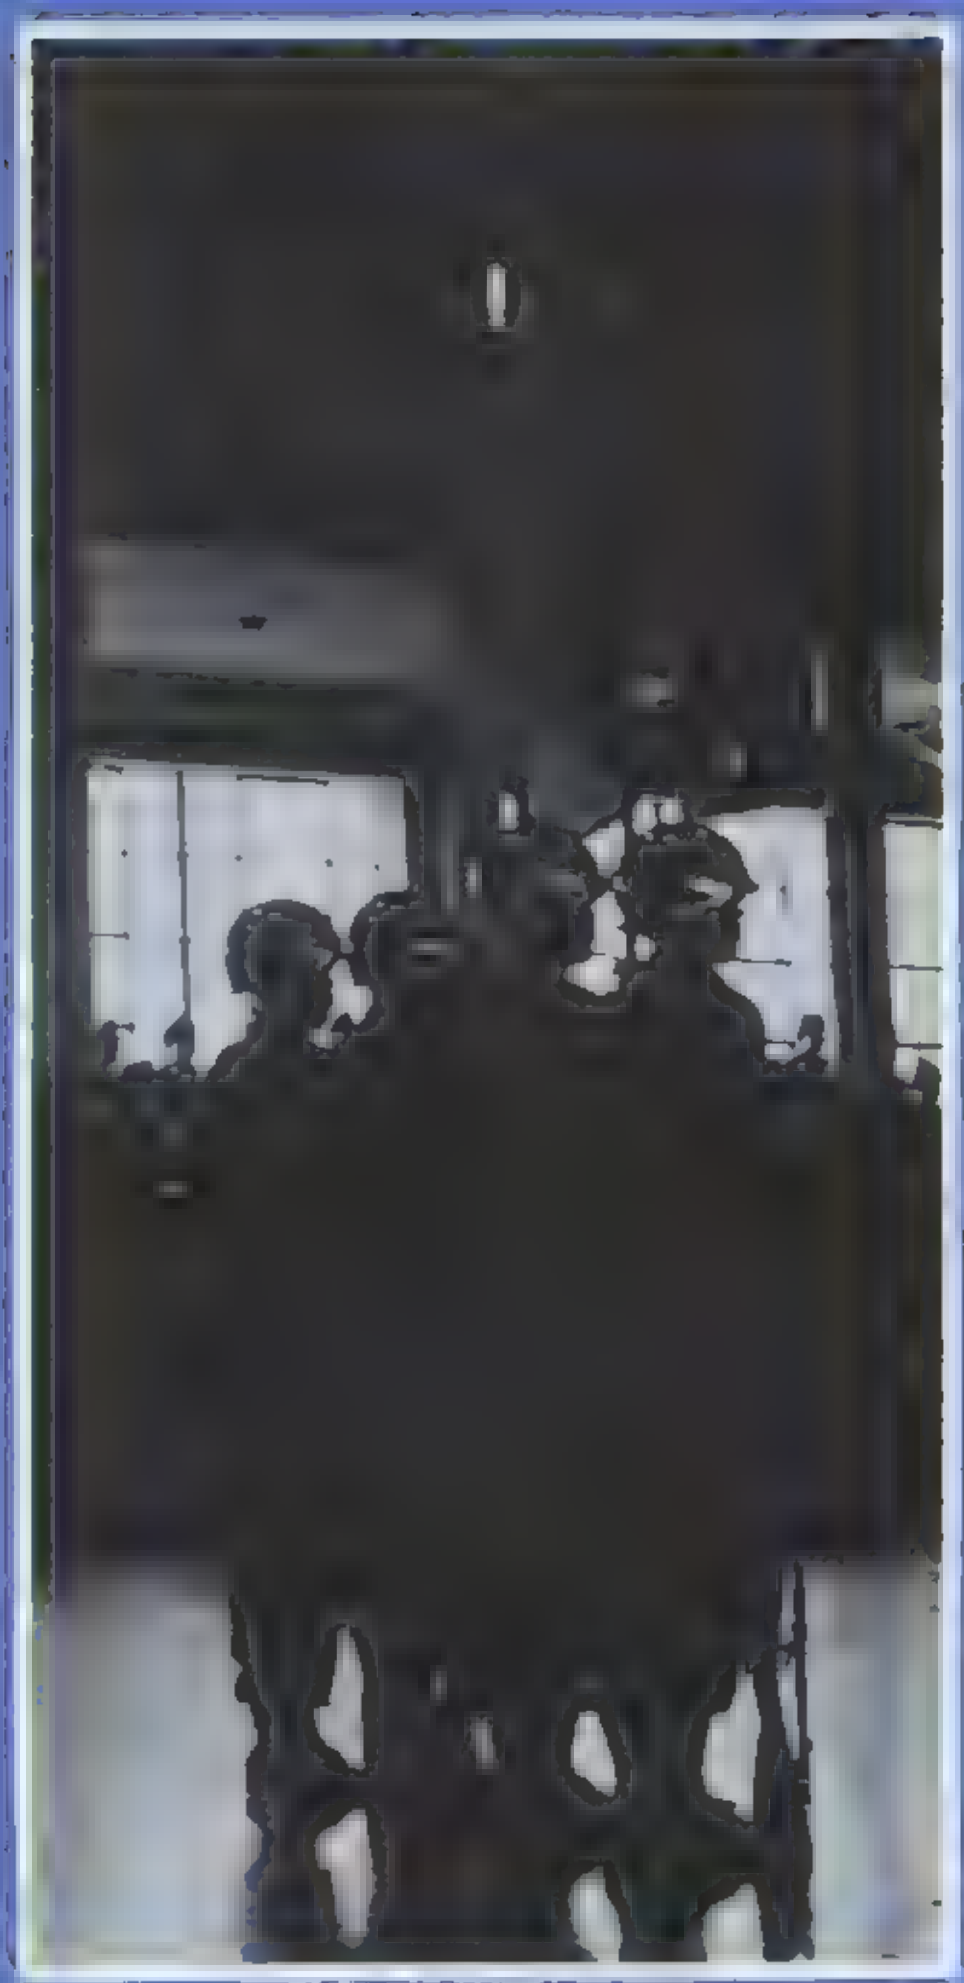

What is it all about?
 Oh, what is it all about?
 When all visions of love
 are but distorted dreams,
 What is it all about?
 Oh, what is it all about?

FRESHMEN

Let's get another board the dots are wrong — fix the dots — a bulldog? that's hard to believe — hey, we're finished — we did it! — what treasurer? — Let's try to get a ride — high school — we were the last class in the North Building — what building? — I'll be pruned! — a lot to look forward to.

It's time now to go
For everything must end,
But I'll see you all again
Knowing time is my friend.

Laura,

I'm not sure I know how to begin. I suppose I could begin by saying it was nice being in French with you. We've never really talked but I'd like to sometime. I miss listening to people sharing an exchange between two minds. I remember at Christmas when you gave me that powder. It meant a lot to me because I wasn't expecting it. I love surprises! but more than that, it just made me feel cared about that you remembered me. Keep in touch through the summer - please.

Love,
Lyane
